

— FUNDRAISER —  
for  
**Aaron Loy**

**Help Aaron fight  
his catastrophic illness**

While away at college in November 2013, Aaron became ill with an extremely aggressive strain of Neisseria (bacterial) meningitis.

Unfortunately doctors had to amputate both his lower legs after the meningitis led to sepsis (blood infection).

Antibiotics have since eradicated the meningitis, however Aaron now faces a long and challenging road to recovery.

**Tuesday, February 4th**  
**11 a.m. - 9 p.m.**

Please present flyer to cashier at  
**Encinitas Souplantation**  
109 North El Camino Real
